## 1. EXECUTIVE SUMMARY

Woodside was granted Ministerial Approval to develop the nearshore component of the Scarborough Project on 11 August 2021 (Ministerial Statement No.1172). Woodside substantially commenced construction of the nearshore component of the Project during this reporting period (11 August 2022 and 10 August 2023). Activities commenced include:

- Shore crossing (onshore) activities - commenced 1 February 2023.
- Shore crossing (intertidal) activities - commenced 6 May 2023.
- Seabed intervention activities:
  - Survey: commenced 27 May 2023.
  - Trenching (dredging) and spoil disposal: 21 July 2023 (trailing suction hopper dredge (TSHD)); 26 July 2023 (backhoe dredge (BHD)).

The environmental management plans and programs required by MS 1172 were approved as follows:

- Dredging and Spoil Management Plan (DSDMP) – Approved 7 March 2023. Dredging activities that trigger the need for the DSDMP commenced 21 July 2023.
- Cultural Heritage Management Plan (CHMP) – Approved 6 January 2023. Ground disturbance activities that trigger the need for the CHMP commenced 1 February 2023.

The Scarborough Project Nearshore Component is compliant with all conditions of Ministerial Statement No. 1172 and associated management plans.

## 2. INTRODUCTION

Woodside was granted Ministerial Approval to construct the nearshore component of the Scarborough Project on 11 August 2021 (Ministerial Statement No.: 1172 (MS1172)). The Scarborough Project concept comprises seabed wells, a semi-submersible gas processing and compression floating production unit in offshore Commonwealth waters and export trunkline (approximately 440 kilometres in length). The nearshore component includes the installation of the section of trunkline running from the State waters boundary up to the Pluto LNG facility on the Burrup Peninsula (about 32 kilometres long).

The scope of this compliance assessment report includes any activity or conditions described in the Dredging and Spoil Disposal Management Plan (DSDMP) and the Cultural Heritage Management Plan (CHMP) included in MS1172, undertaken in the reporting period, between 11 August 2022 and 10 August 2023.

### 3. SUMMARY OF PROPOSAL'S IMPLEMENTATION STATUS

Construction of the Scarborough Project Nearshore Component substantially commenced during this reporting period. Activities commenced include:

- Shore crossing (onshore) activities - commenced 1 February 2023.
- Shore crossing (intertidal) activities - commenced 6 May 2023.
- Seabed intervention activities:
  - Survey: commenced 27 May 2023.
  - Trenching (dredging) and spoil disposal: 21 July 2023 (TSHD); 26 July 2023 (BHD).

Trenching and spoil disposal activities in State waters, within the development envelope, have been completed (as far as practicable near the State waters boundary). When Commonwealth activities commence there will be some minor overlap back into State waters. Trunkline installation activities, post-lay seabed intervention activities and those activities occurring onshore are ongoing.

## **4. STATEMENT OF COMPLIANCE**

The Statement of Compliance is included in Appendix A.

This document is protected by copyright. No part of this document may be reproduced, adapted, transmitted, or stored in any form by any process (electronic or otherwise) without the specific written consent of Woodside. All rights are reserved.

## 5. DETAILS OF DECLARED COMPLIANCE STATUS

Woodside is in compliance with the conditions of MS1172. There have been no non-compliances, with evidence of compliance with the conditions of MS1172 provided below and described in the audit table in Appendix B.

### 5.1 Environmental Management Plans / Programs

The status of the environmental management plans and programs required by MS1172 is as follows:

- DSDMP – Approved 7 March 2023. Dredging activities that trigger the need for the DSDMP commenced 21 July 2023.
- CHMP – Approved 6 January 2023. Ground disturbance activities that trigger the need for the CHMP commenced 1 February 2023.

### 5.2 Environmental Monitoring Plans / Programs / Research

MS1172 does not require the implementation of specific monitoring plans, programs or research with the exception of the monitoring programs and surveys detailed the Environmental Management Plans described in Section 5.1.

All monitoring activities as required by the DSDMP in the reporting period were conducted, as summarised in Table 5-1.

Table 5-1: Overview of the key monitoring requirements from the DSDMP and associated status in the reporting period

Program	Key details	Status
<b>Water quality monitoring</b>	<ul style="list-style-type: none"> <li>• Telemetered turbidity and light monitoring at 19 monitoring sites across the Dampier Archipelago</li> <li>• Water quality instruments deployed for a minimum of 14 days (one spring neap tidal cycle) before trenching and spoil disposal, to ensure reliable operability. After ceasing the relevant activity, instruments will remain in-situ for four weeks (two spring-neap tidal cycles).</li> <li>• Web-based online data dashboard for telemetered near real time data including automated QAQC (as far as practicable), trigger assessment and notification.</li> </ul>	<ul style="list-style-type: none"> <li>• The continuation of the baseline monitoring program as required.</li> <li>• Deployment of telemetered monitoring units at all monitoring sites (1 -15 May 2023), which have remained deployed during the reporting period.</li> <li>• No Project attributable tiered trigger exceedances in the reporting period.</li> </ul>
<b>Coral community assessment</b>	<ul style="list-style-type: none"> <li>• Baseline coral community assessment at 18 sites (within six months before activity)</li> <li>• Reactive coral community assessment at affected site/s and eight reference sites.</li> <li>• Post- dredging coral community assessment at 18 sites (unless rationalised) within three months of completion of backfill activities</li> </ul>	<ul style="list-style-type: none"> <li>• Completion of pre-activity coral community assessment surveys (27 April to 5 May 2023 and 30 May to 3 June 2023).</li> <li>• No Project attributable tier 3 trigger exceedances, so no reactive coral community assessment surveys required.</li> </ul>
<b>Dredge plume assessment</b>	<ul style="list-style-type: none"> <li>• Nearshore trenching and spoil disposal dredge plume assessment, potential contaminant of concern sampling and model validation</li> <li>• Analyte analysis by NATA accredited laboratory.</li> </ul>	<ul style="list-style-type: none"> <li>• Completion of trenching and spoil disposal dredge plume assessment (3-5 August 2023), including potential contaminant of concern analysis.</li> </ul>
<b>Remote sensing</b>	<ul style="list-style-type: none"> <li>• Sourcing of regular (daily where possible) remote sensing imagery using an appropriate platform (VIIRS as base case).</li> </ul>	<ul style="list-style-type: none"> <li>• MODIS, VIIRS and Sentinel 2 imagery available for use</li> </ul>

Table 5-2 provides a list of cultural features and heritage values related reports that have been delivered to meet requirements set out in the CHMP.

Table 5-2: Reports associated with the Cultural Heritage Management Plan delivered in the annual reporting period.

Report title
Comber Consultants 2023. Heritage ROV Survey Report - Scarborough Trunkline. Report to Woodside Energy.
Integrated Heritage Services 2023a. Short Report: Audit of Aboriginal Heritage Site Protection Signage, Dust Suppression Measures and Retained Rock Armour, Woodside Scarborough Development, Industrial Site A, Pluto LNG Plant, Murujuga, Burrup Peninsula, Western Australia
Integrated Heritage Services 2023b. Short Report: Confirmation of Installation of Signage for Protection and Management of Aboriginal Heritage Site 19675, Woodside Scarborough Development, Industrial Site A, Pluto LNG Plant, Murujuga, Burrup Peninsula, Western Australia

## 5.3 Supporting/verifying information/documentation

### 5.3.1 Trenching and spoil disposal

Trenching of the trunkline route, and associated spoil disposal, commenced on 21 July 2023. Spoil disposal from the split hopper barges supporting the BHD was placed in Spoil Ground A/B, while sediment from the TSHD was disposed at Spoil Ground 2B. Trenching has been substantially completed in State waters (up until approximately KP31, noting KP32.04 is the State waters boundary). The volume dredged (as of 31/08/2023) is presented in Table 5-3, which is well within the approved and impact assessed volumes.

Table 5-3: Trenching and spoil disposal estimated maximum and likely volumes, and volumes dredged

Activity	Estimated maximum volumes <sup>1</sup> (as per referral documentation)	Estimated likely volumes (rounded from plume modelling)	Volume dredged (m <sup>3</sup> ) (up to ~KP31.3 as of 31/08/2023)
State waters trenching	1,612,600 m <sup>3</sup>	1,125,000 m <sup>3</sup>	602,555 m <sup>3</sup>
State waters sand backfill	1,982,100 m <sup>3</sup>	1,180,000 m <sup>3</sup>	Not yet commenced

Figure 5-1 shows the trench progress in State waters, while Figure 5-2 to Figure 5-6 provide examples of post trenching survey data (to date) along the trunkline route demonstrating that activities have been within the authorised extent, as per Condition 1. These figures demonstrate that trenching activities to date have complied with the indicative footprint of 1 km<sup>2</sup> for the trench, based on an average width of 30 m (represented by the grey corridor). Note disturbance outside the 30 m trunkline corridor in locations closer to shore (e.g. Figure 5-6) are typically due to placement of the backhoe dredge spuds (i.e., anchors), anchors and propeller wash due to the shallow bathymetry, and is well within the approved disturbance footprint of the development envelope (~750 either side).

In addition, Figure 5-7 to Figure 5-9 are post trenching survey data demonstrating no impact to the defined calcarenite ridges.

<sup>1</sup> All trenching volumes are based on 'in situ' measurement (confirmed by hydrographic survey techniques).

## 5.4 Raw data

### 5.4.1 Water quality monitoring program

To support compliance statements regarding Condition 6.8, Figure 5-10 to Figure 5-12 demonstrate that during the reporting period there were no Project attributable water quality trigger exceedances recorded. Note this data is telemetered and hence available in near real-time to facilitate timely assessment of data.

### 5.4.2 Marine Fauna Observations

To support compliance statements regarding Condition 6.8, a summary of the marine fauna observation undertaken in the reporting period are provided in Table 5-4.

Table 5-4: Marine Fauna Observer summary observations for the reporting period

Date	Number of fauna sightings	Number of Adaptive Measures	Date	Number of fauna sightings	Number of Adaptive Measures
21/07/2023	10	10	01/08/2023	6	3

## **APPENDIX A: STATEMENT OF COMPLAINT**

## Statement of Compliance

### 1. PROPOSAL AND PROPONENT DETAILS

Proposal Title	<i>Scarborough Project – Nearshore Component</i>
Statement Number	1172
Proponent Name	<i>Woodside Energy Ltd</i>
Proponent's Australian Company Number (where relevant)	005 482 986

### 2. STATEMENT OF COMPLIANCE DETAILS

Reporting Period	11/08/22 to 10/08/23
------------------	----------------------

Implementation phase(s) during reporting period (please tick ✓ relevant phase(s))							
Pre-construction	<input checked="" type="checkbox"/>	Construction	<input checked="" type="checkbox"/>	Operation	<input type="checkbox"/>	Decommissioning	<input type="checkbox"/>

Audit Table for Statement addressed in this Statement of Compliance is provided at Attachment:	2 (Appendix B)
--	----------------

An audit table for the Statement addressed in this Statement of Compliance must be provided as Attachment 2 to this Statement of Compliance. The audit table must be prepared and maintained in accordance with the Department of Water and Environmental Regulation (DWER) *Post Assessment Guideline for Preparing an Audit Table*, as amended from time to time. The 'Status Column' of the audit table must accurately describe the compliance status of each implementation condition and/or procedure for the reporting period of this Statement of Compliance. The terms that may be used by the proponent in the 'Status Column' of the audit table are limited to the Compliance Status Terms listed and defined in Table 1 of Attachment 1.

Were all implementation conditions and/or procedures of the Statement complied with within the reporting period? (please tick ✓ the appropriate box)			
No (please proceed to Section 3)	<input type="checkbox"/>	Yes (please proceed to Section 4)	<input checked="" type="checkbox"/>

### 3. DETAILS OF NON-COMPLIANCE(S) AND/OR POTENTIAL NON-COMPLIANCE(S)

The information required Section 3 must be provided for each non-compliance or potential non-compliance identified during the reporting period covered by this Statement of Compliance.

#### Non-compliance/potential non-compliance 3-1

Which implementation condition or procedure was non-compliant or potentially non-compliant?
Was the implementation condition or procedure non-compliant or potentially non-compliant?
On what date(s) did the non-compliance or potential non-compliance occur (if applicable)?

Was this non-compliance or potential non-compliance reported to the Chief Executive Officer, DWER?	
<input type="checkbox"/> Yes <input type="checkbox"/> Reported to DWER verbally      Date _____ <input type="checkbox"/> Reported to DWER in writing      Date _____	<input type="checkbox"/> No

What are the details of the non-compliance or potential non-compliance and where relevant, the extent of and impacts associated with the non-compliance or potential non-compliance?
What is the precise location where the non-compliance or potential non-compliance occurred (if applicable)? (please provide this information as a map or GIS co-ordinates)
What was the cause(s) of the non-compliance or potential non-compliance?
What remedial and/or corrective action(s), if any, were taken or are proposed to be taken in response to the non-compliance or potential non-compliance?
What measures, if any, were in place to prevent the non-compliance or potential non-compliance before it occurred? What, if any, amendments have been made to those measures to prevent re-occurrence?
Please provide information/documentation collected and recorded in relation to this implementation condition or procedure: <ul style="list-style-type: none"> <li>• in the reporting period addressed in this Statement of Compliance; and</li> <li>• as outlined in the approved Compliance Assessment Plan for the Statement addressed in this Statement of Compliance.</li> </ul> (the above information may be provided as an attachment to this Statement of Compliance)

*For additional non-compliance or potential non-compliance, please duplicate this page as required.*

#### 4. PROPONENT DECLARATION

I, ....., (*full name and position title*)

declare that I am authorised on behalf of .....

(*being the person responsible for the proposal*) to submit this form and that the information contained in this form is true and not misleading.

Signature:..... Date:.....

Please note that:

- it is an offence under section 112 of the *Environmental Protection Act 1986* for a person to give or cause to be given information that to his knowledge is false or misleading in a material particular; and
- the Chief Executive Officer of the DWER has powers under section 47(2) of the *Environmental Protection Act 1986* to require reports and information about implementation of the proposal to which the statement relates and compliance with the implementation conditions.

#### 5. SUBMISSION OF STATEMENT OF COMPLIANCE

One hard copy and one electronic copy (preferably PDF on CD or thumb drive) of the Statement of Compliance are required to be submitted to the Chief Executive Officer, DWER, marked to the attention of Manager, Compliance (Ministerial Statements).

Please note, the DWER has adopted a procedure of providing written acknowledgment of receipt of all Statements of Compliance submitted by the proponent, however, the DWER does not approve Statements of Compliance.

#### 6. CONTACT INFORMATION

Queries regarding Statements of Compliance, or other issues of compliance relevant to a Statement may be directed to Compliance (Ministerial Statements), DWER:

**Manager, Compliance (Ministerial Statements)**

**Department of Water and Environmental Regulation**

Postal Address: Locked Bag 10  
Joondalup DC

#### 7. POST ASSESSMENT GUIDELINES AND FORMS

Post assessment documents can be found at [www.epa.wa.gov.au](http://www.epa.wa.gov.au)

## ATTACHMENT 1

Table 7-1 Compliance Status Terms

Compliance Status Terms	Abbrev	Definition	Notes
Compliant	C	Implementation of the proposal has been carried out in accordance with the requirements of the audit element.	This term applies to audit elements with: <ul style="list-style-type: none"> <li>ongoing requirements that have been met during the reporting period; and</li> <li>requirements with a finite period of application that have been met during the reporting period, but whose status has not yet been classified as 'completed'.</li> </ul>
Completed	CLD	A requirement with a finite period of application has been satisfactorily completed.	This term may only be used where: <ul style="list-style-type: none"> <li>audit elements have a finite period of application (e.g. construction activities, development of a document);</li> <li>the action has been satisfactorily completed; and</li> <li>the DWER has provided written acceptance of 'completed' status for the audit element.</li> </ul>
Not required at this stage	NR	The requirements of the audit element were not triggered during the reporting period.	This should be consistent with the 'Phase' column of the audit table.
Potentially Non-compliant	PNC	Possible or likely failure to meet the requirements of the audit element.	This term may apply where during the reporting period the proponent has identified a potential non-compliance and has not yet finalized its investigations to determine whether non-compliance has occurred.
Non-compliant	NC	Implementation of the proposal has not been carried out in accordance with the requirements of the audit element.	This term applies where the requirements of the audit element are not "complete" have not been met during the reporting period.
In Process	IP	Where an audit element requires a management or monitoring plan be submitted to the DWER or another government agency for approval, that submission has been made and no further information or changes have been requested by the DWER or the other government agency and assessment by the DWER or other government agency for approval is still pending.	<b>The term 'In Process' may not be used for any purpose other than that stated in the Definition Column.</b>  The term 'In Process' may not be used to describe the compliance status of an implementation condition and/or procedure that requires implementation throughout the life of the project (e.g. implementation of a management plan).

**APPENDIX B: AUDIT TABLE**

**Note:**

- Phases that apply in this table = Pre-Construction, Construction, Operation, Decommissioning, Overall (several phases).
- This audit table is a summary and timetable of conditions and commitments applying to this project. Refer to the Minister’s Statement for full detail/precise wording of individual elements.
- Code prefixes: M = Minister’s condition, P = Proponent’s commitment.
- Acronyms list: CAP = Compliance Assessment Plan; CAR = Compliance Assessment Report; CEO = Chief Executive Officer of OEPA; CHMP = Cultural Heritage Management Plan; DSDMP = Dredging and Spoil Disposal Management Plan; EP Act = Environmental Protection Act; OEPA = Office of the Environmental Protection Authority.
- Compliance Status: C = Compliant, CLD = Completed, NA = Not Audited, NC = Non – compliant, NR = Not Required at this stage. Please note the terms VR = Verification Required and IP = In Process are only for OEPA use.

Audit Code	Subject	Requirement	How	Evidence	Phase	Timeframe	Status	Further Information
1172:M1.1	Proposal Implementation	When implementing the proposal, the proponent must not exceed the authorised extent of the proposal, unless amendments to the proposal and the authorised extent of the proposal have been approved under the EP Act.	CAR	CAR	Overall	When implementing the proposal.	Compliant	Construction completed to date has been within the authorised extent.
1172:M2.1	Contact Details	The proponent must notify the CEO of any change of its name, physical address or postal address for the serving of notices or other correspondence within twenty-eight (28) days of such change. Where the proponent is a corporation or an association of persons, whether incorporated or not, the postal address is that of the principal place of business or of the principal office in the State.	Written correspondence	Letter or email to the CEO notifying change	Overall	Within 28 days of change in name, physical address or postal address.	Compliant	No change.
1172:M3.1	Time Limit for Proposal Implementation	The proponent must not commence implementation of the proposal after five (5) years from the date of this Statement, and any commencement, prior to this date, must be substantial.	CAR	Correspondence demonstrating substantial commencement of the Project	Overall	Before 10 August 2026.	Compliant	Substantial commencement of activities at the shore crossing commenced 1 February 2023.
1172:M3.2	Time Limit for Proposal Implementation	Any commencement of implementation of the proposal, on or before five (5) years from the date of this Statement, must be demonstrated as substantial by providing the CEO with written evidence, on or before the expiration of five (5) years from the date of this Statement.	Written correspondence of commencement	Correspondence demonstrating substantial commencement of the Project	Overall	Before 10 August 2026.	Compliant	This CAR satisfies this condition to provide written notification of substantial commencement of project as per described in Section 3.
1172:M4.1	Compliance Reporting	The proponent must prepare, and maintain a Compliance Assessment Plan which is submitted to the CEO at least six (6) months prior to the first Compliance Assessment Report required by condition	Prepare CAP in accordance with approval and guideline requirements.	Written acceptance from the CEO of current version of the CAP	Overall	Submit CAP by 11 May 2022.	Compliant	The CAP was submitted by 11 May 2022. Written approval of the CAP was granted by the CEO on 25

STATEMENT: 1172

Audit Code	Subject	Requirement	How	Evidence	Phase	Timeframe	Status	Further Information
		4-6, or prior to implementation of the proposal, whichever is sooner.						May 2022.
1172:M4.2	Compliance Reporting	The Compliance Assessment Plan must indicate: (1) the frequency of compliance reporting; (2) the approach and timing of compliance assessments; (3) the retention of compliance assessments; (4) the method of reporting of potential non-compliances and corrective actions taken; (5) the table of contents of Compliance Assessment Reports; and (6) public availability of Compliance Assessment Reports.	Prepare CAP in accordance with approval and guideline requirements.	Written acceptance from the CEO of current version of this CAP	Overall	Submit CAP by 11 May 2022.	Compliant	No change. Written approval of the CAP was granted by the CEO on 25 May 2022.
1172:M4.3	Compliance Reporting	After receiving notice in writing from the CEO that the Compliance Assessment Plan satisfies the requirements of condition 4-2 the proponent must assess compliance with conditions in accordance with the Compliance Assessment Plan required by condition 4-1.	CAR prepared in accordance with approved CAP.	Submission of CAR to the CEO	Overall	Submit first CAR by 11 November 2022 and annually thereafter.	Compliant	The first CAR was submitted to the CEO prior to 11 November 2022. This CAR satisfies requirement of annual reporting.
1172:M4.4	Compliance Reporting	The proponent must retain reports of all compliance assessments described in the Compliance Assessment Plan required by condition 4-1 and shall make those reports available when requested by the CEO.	All CARs retained for seven years following the end of the life of the proposal	Provision on request of the CEO	Overall	When requested by the CEO.	Compliant	All CARs are saved in accordance with Woodside procedures and will be made available on request.
1172:M4.5	Compliance Reporting	The proponent must advise the CEO of any potential non-compliance within seven (7) days of that non-compliance being known.	Written correspondence	Written correspondence to the CEO	Overall	Within 7 days of that non-compliance being known.	Compliant	There were no non-compliances with the conditions set out in Ministerial Statement during the reporting period.
1172:M4.6	Compliance Reporting	The proponent must submit to the CEO the first Compliance Assessment Report (11 August 2021 – 10 August 2022) fifteen (15) months from the date of issue of this Statement addressing the twelve (12) month period from the date of issue of this Statement and then annually from the date of submission of the first Compliance Assessment Report, or as otherwise agreed in writing by the CEO. The Compliance Assessment Report must: (1) be endorsed by the proponent's Chief Executive Officer or a person delegated to sign on the Chief Executive Officer's behalf; (2) include a statement as to whether the proponent has complied with the conditions; (3) identify all potential non-compliances and describe corrective and preventative actions taken; (4) be made publicly available in accordance with the approved Compliance Assessment Plan; and (5) indicate any proposed changes to the Compliance Assessment Plan required by condition 4-1.	CAR	Submission of the CAR to the CEO	Overall	Submit first CAR by 11 November 2022 and annually thereafter.	Compliant	The first CAR was submitted to the CEO prior to 11 November 2022 and subsequently approved on 24 November 2022. This report was a nil report as the activity had not substantially commenced and has not been subject to a Freedom of Information request. This CAR satisfies requirement of annual reporting.

PROPOSAL: Scarborough Project – Nearshore Component  
STATEMENT: 1172

Audit Code	Subject	Requirement	How	Evidence	Phase	Timeframe	Status	Further Information
1172:M5.1	Public Availability of Data	Subject to condition 5-2, within a reasonable time period approved by the CEO of the issue of this Statement and for the remainder of the life of the proposal the proponent must make publicly available, in a manner approved by the CEO, all validated environmental data (including sampling design, sampling methodologies, empirical data and derived information products (e.g. maps)), management plans and reports relevant to the assessment of this proposal and implementation of this Statement.	Final management plans and monitoring reports required by conditions 6-2 and 7-2, will be made publicly available on Company website in accordance with conditions 5-1 and 5-2.	Company website	Overall	Within 3 months of acceptance or approval of management plan or report, unless otherwise approved by the CEO in accordance with Condition 5-2.	Compliant	The approved DSDMP and CHMP are publicly available on Woodside's website. Monitoring reports for applicable surveys undertaken to date have not yet been finalised. Once final, they will be made publicly available on Woodside's website as per the requirements set out in the DSDMP.
1172:M5.2	Public Availability of Data	If any data referred to in condition 5-1 contains particulars of: (1) a secret formula or process; or (2) confidential commercially sensitive information; the proponent may submit a request for approval from the CEO to not make these data publicly available. In making such a request the proponent must provide the CEO with an explanation and reasons why the data should not be made publicly available.	Written correspondence	Letter of approval from the CEO	Overall	When implementing the proposal.	Compliant	Management plans are publicly available in their entirety on Woodside's website.
1172:M6.1	Dredging and Spoil Disposal Management Plan	The proponent must ensure implementation of the proposal achieves the following Environmental Protection Outcomes: (1) no detectable net reduction of live coral cover at any of the coral impact monitoring locations attributable to the proposal; and (2) avoid where possible and otherwise minimise direct and indirect impacts on marine fauna listed as specially protected fauna under the <i>Biodiversity Conservation Act 2016</i> .	Implementation of the Dredging and Spoil Disposal Management Plan (DSDMP)	CAR	Overall	When implementing the proposal.	Compliant	Pre-activity Coral Community Assessment Survey completed over two surveys (27 April to 5 May 2023 and 30 May to 3 June 2023) Monitoring is ongoing. Marine fauna observer monitoring ongoing as applicable to vessel and activity.
1172:M6.2	Dredging and Spoil Disposal Management Plan	Prior to dredging activities, the proponent shall finalise and submit a further revision of the Dredging and Spoil Disposal Management Plan (SA0006AH0000002, Rev 2, November 2019), in consultation with the Murujuga Aboriginal Corporation, to meet the Environmental Protection Outcomes specified in condition 6-1.	Revision of DSDMP, including an overview of consultation undertaken with Murujuga Aboriginal Corporation (MAC)	Submission of the revised DSDMP to the CEO	Pre-construction	Prior to dredging activities.	Compliant	The DSDMP, inclusive of consultation outcomes, was approved by the CEO on 7 March 2023. This was prior to the commencement of dredging activities (21 July 2023).
1172:M6.3	Dredging and Spoil Disposal Management Plan	The Dredging and Spoil Disposal Management Plan as required by condition 6-2 shall include: (1) a requirement for all dredging and spoil disposal activities to be managed with the objective of achieving the Environmental Protection Outcomes required by condition 6-1;	Revised DSDMP that addresses each requirement to the satisfaction of the CEO.	Letter of approval from the CEO	Pre-construction	Prior to dredging activities.	Compliant	The DSDMP was approved by the CEO on 7 March 2023.

		observers); (e) measures to minimise indirect impacts on turtles from lighting, including by minimising lighting use on vessels and during onshore construction; (f) recording sightings and locations of marine fauna in the vessels' daily log book; and (g) documenting and reporting to relevant regulators any incidents relating to marine fauna injury / mortality. (11) procedures for determining whether any management trigger exceedances are attributable to the implementation of the proposal; (12) contingency management strategies to be employed if management triggers are reached as a result of the proposal; (13) clear reporting procedures if management triggers are reached; (14) mechanisms to provide the public with details of exceedances of management triggers and contingency actions as soon as practicable; (15) mechanisms to notify the public if marine recreational values are likely to be impacted as a result of the dredging, spoil disposal and/or backfill activities; and (16) evidence of the consultation required and the outcomes of this consultation						
1172:M6.4	Dredging and Spoil Disposal Management Plan	Dredging activities may not commence until the proponent has received notice in writing from the CEO that the Dredging and Spoil Disposal Management Plan satisfies the requirements of condition 6-3.	Written correspondence	Written correspondence from the CEO advising the DSDMP satisfies the requirements of condition 6-3	Pre-construction	Prior to dredging activities.	Compliant	The DSDMP was approved by the CEO on 7 March 2023. This was prior to the commencement of dredging activities (21 July 2023).
1172:M6.5	Dredging and Spoil Disposal Management Plan	The proponent: (1) may review and revise the Dredging and Spoil Disposal Management Plan; or (2) must review and revise the Dredging and Spoil Disposal Management Plan as and when directed by the CEO.	Written correspondence	Written correspondence to the CEO advising the proponent's proposed changes to the DSDMP, or advising changes made at the request of the CEO.	Overall	As required or when directed by the CEO.	Not required at this stage	Review of the DSDMP has not been required since CEO approval.
1172:M6.6	Dredging and Spoil Disposal Management Plan	The proponent shall implement the latest revision of the Dredging and Spoil Disposal Management Plan required by condition 6-2, which the CEO has confirmed by notice in writing, satisfies the requirements of condition 6-3.	Implementation of the DSDMP	CAR	Overall	When implementing the proposal.	Compliant	Works have been completed in accordance with the approved DSDMP.
1172:M6.7	Dredging and Spoil Disposal Management	In the event that monitoring carried out under the Dredging and Spoil Disposal Management Plan determines that the relevant Environmental Protection	Written correspondence	Written correspondence of notification and reporting to the CEO	Overall	In the event that monitoring determines that the	Compliant	EPO6-1(1) will be determined as a part of the Post-dredging Coral Community Assessment

Audit Code	Subject	Requirement	How	Evidence	Phase	Timeframe	Status	Further Information
								direct impacts on marine fauna. With regard to effectiveness of contingency management actions, further definition has been sought from DBCA with respect to managing marine fauna in an event if retrieved.
1172:M7.1	Cultural Heritage Management Plan	The proponent must implement the proposal to meet the following objective: (1) Minimise direct and indirect impacts to social, cultural, heritage and archaeological values within and surrounding the Development Envelope, including from, but not limited to: (a) disturbance of the ground that may impact Aboriginal Heritage Site, 19675 Holden Point Quarry A and accompanying conservation zone (known as 'Tool Shed') registered under the <i>Aboriginal Heritage Act 1972</i> ; (b) potential loss of access to areas to undertake traditional activities; (c) indirect impacts, including visual and dust impacts to social and cultural places and activities; and (d) disturbance of areas of volcanic rock in the sea bed.	Implementation of the Cultural Heritage Management Plan (CHMP)	CAR	Overall	When implementing the proposal.	Compliant	Works have been completed in accordance with the approved CHMP. No direct or indirect impacts to the values listed in (1)(a)-(d) have been recorded.
1172:M7.2	Cultural Heritage Management Plan	Prior to ground disturbing activities, the proponent shall finalise and submit a further version of the Cultural Heritage Management Plan (SA0006GH1401311448, Rev A, November 2019), in consultation with the Murujuga Aboriginal Corporation, to meet the objective specified in condition 7-1.	Revision of CHMP, including an overview of consultation undertaken with Murujuga Aboriginal Corporation (MAC)	Submission of the revised CHMP to the CEO	Pre-construction	Prior to ground disturbing activities.	Compliant	CHMP was approved by the CEO on 6 January 2023. This was prior to ground disturbance activities which commenced 1 February 2023.
1172:M7.3	Cultural Heritage Management Plan	The Cultural Heritage Management Plan required by condition 7-2 must: (1) specify the objective to be achieved, as specified in condition 7-1; (2) specify risk-based management actions that will be implemented to demonstrate compliance with the objective specified in condition 7-1; (3) specify measurable management target(s) to determine the effectiveness of the risk-based management actions; (4) specify monitoring to measure the effectiveness of	Revised CHMP that addresses each requirement to the satisfaction of the CEO.	Letter of approval from the CEO	Pre-construction	Prior to ground disturbing activities.	Compliant	CHMP was approved by the CEO on 6 January 2023. This was prior to ground disturbance activities which commenced 1 February 2023.

		management actions against management targets; (5) specify a process for revision of management actions and changes to proposal activities, in the event that the management targets are not achieved. The process must include an investigation to determine the cause of the management target(s) not being met; (6) provide the format and timing to demonstrate that condition 7-1 has been met for the reporting period in the Compliance Assessment Report required by condition 4-6 including, but not limited to: (a) verification of the implementation of management actions; and (b) reporting on the effectiveness of management actions against management target(s); and (7) provide evidence of consultation required by condition 7-2 and the outcomes of this consultation.						
1172:M7.4	Cultural Heritage Management Plan	Ground disturbing activities may not commence until the proponent has received notice in writing from the CEO that the Cultural Heritage Management Plan satisfies the requirements of condition 7-3.	Written correspondence	Written correspondence from the CEO advising the CHMP satisfies the requirements of condition 7-3	Pre-construction	When implementing the proposal.	Compliant	CHMP was approved by the CEO on 6 January 2023.  This was prior to ground disturbance activities which commenced 1 February 2023.
1172:M7.5	Cultural Heritage Management Plan	After receiving notice in writing from the CEO that the Cultural Heritage Management Plan satisfies the requirements of condition 7-3, the proponent must: (1) implement the provisions of the Cultural Heritage Management Plan; and (2) continue to implement the Cultural Heritage Management Plan until the CEO has confirmed by notice in writing that the proponent has demonstrated the objective specified in condition 7-1 has been met.	Implementation of the CHMP	CAR	Overall	When implementing the proposal.	Compliant	Works have been completed in accordance with the approved CHMP.
1172:M7.6	Cultural Heritage Management Plan	In the event that monitoring, tests, surveys or investigations indicate nonachievement of management target(s) specified in the Cultural Heritage Management Plan, the proponent must: (1) report the non-achievement in writing to the CEO within twenty-one (21) days of the non-achievement being identified; (2) investigate to determine the cause of the management target(s) not being achieved; (3) provide a report to the CEO within ninety (90) days of the non-achievement being reported as required by condition 7-6(1). The report must include: (a) cause of management target(s) being exceeded; (b) the	Written correspondence	Written correspondence to the CEO	Overall	In the event that monitoring, tests, surveys or investigations indicate nonachievement of management target(s), with notification and report timeframes as per condition 7-6.	Compliant	No non-achievement of management target(s) has been identified to date.
