

# Woodside Louisiana LNG

NOVEMBER 2024

## Advancing Woodside Louisiana LNG

Woodside Louisiana LNG is an under-construction, pre-final investment decision (FID), LNG production and export terminal in Calcasieu Parish, Louisiana. It is a high-quality, scalable development opportunity, with a total permitted capacity of 27.6 million tonnes per annum.

Front-end engineering design is complete and site construction has commenced on the project, which contemplates the construction of 5 LNG plants through 4 phases. Bechtel is the selected engineering, procurement and construction contractor.

27.6 Mtpa liquefaction capacity

Acquired 2024

Construction commenced

Targeting FID readiness from Q1 2025

## Woodside completes acquisition of Tellurian

Woodside completed the acquisition of Tellurian and its US Gulf Coast LNG development opportunity in October 2024. Upon closing, we renamed Driftwood LNG, Woodside Louisiana LNG. The acquisition represents a new chapter for the company and reinforces our position as a leading independent LNG company, as well as strengthens our portfolio with a high-quality development.

## About Woodside Energy

Woodside Energy is a global energy company, founded in Australia, providing reliable and affordable energy to help people lead better lives. We aim to thrive through the energy transition with a low cost, lower carbon, profitable, resilient and diversified portfolio.

Our global portfolio includes LNG, oil and gas assets across Australia, the Gulf of Mexico, the Caribbean, Senegal, Timor-Leste and Canada. We are contributing to the energy transition by leveraging our track record of reliable operations, strong customer relationships and investing in new energy.

## Supporting the local community

As a global energy company, we are proud to be part of the diverse communities in which we work. We have a strong history of investment in the communities where our employees live and work.

We are committed to building on the significant investment made to date by Tellurian in the community, as well as our existing community programs in the Greater Bayou area.

## Woodside Invests \$650,000 in Louisiana Communities

In October 2024, Woodside announced the company will invest US\$650,000 in Louisiana through the end of 2025, reinforcing the company's commitment to the region and local communities. The investment will fund five community grant programs and enable initiatives that support a broad range of needs across communities in the Greater Bayou area, including environmental preservation, coastal protection, education, workforce development, and capacity building.

---

Woodside uses this term to describe the characteristic of having lower levels of associated potential GHG emissions when compared to historical and/or current conventions or analogues, for example relating to an otherwise similar resource, process, production facility, product or service, or activity. When applied to Woodside's strategy, please see the definition of lower carbon portfolio.
